

Beauty and safety go hand in hand

Those seeking new decorative fabrics often make their decision based on looks alone. If you choose a flame retardant fabric, though, you will enjoy the added bonus of heightened safety – these kinds of fabrics will prevent flames from spreading up the walls of your home in the event of a fire. The current spring collection includes a whole range of these intelligent fabrics, which look and feel fantastic – and keep you safe.

From cinemas and hotels to nurseries, public and commercial buildings have long been furnished with flame retardant fabrics as a standard. In private homes, however, we are quick to forget the risks that everyday items such as irons and candles can pose. Luckily, you can also use flame retardant fabrics to easily ensure safety in your own home – and without having to sacrifice style, either. Flame retardant ADO fabrics don't catch light from sparks, which means that they can limit or even prevent the spread of a fire. These fabrics provide effective protection for bedrooms, play rooms, kitchens, living rooms and corridors. What's more, you do not need to lower your aesthetic standards to enjoy the benefits of the added safety they provide. What with their soft feel and large range of designs, these flame retardant fabrics are every bit as high in quality as classic window decorations. They can even be washed at temperatures of up to 60°. The current **PERFECT GETAWAYS** collection by ADO Goldkante includes seven new **LAKESIDE**

fabrics. From the airy, transparent **BLUMENWIESE** fabric, which features delicate watercolour blossoms, to the light, decorative **PRADO** fabric in 21 monotone shades, through to the tightly woven **SNOOZE DIMOUT** option for bedrooms, we have a whole range of flame retardant fabrics on offer. Each one comes in a fresh and summery colour palette. Some of the fabrics are single-colour, some are striped (**LINEA** and **VIA**), others feature delicate geometric patterns (**GLAZE**), while others still boast a finely structured, linen-like pattern (**LINTO**). All the more reason to consider flame retardant fabrics the next time you are choosing textiles for your home. Whether you're a parent with rowdy little explorers at home or someone who tends to lose their concentration at their age, these fabrics let you continue to enjoy romantic candlelight, regardless of your stage of life. Keep your home beautiful and safe.

About the company

In 1954, ADO, which is named after its location in AschenDorf, Germany, was founded by Hubert and Marianne Wulf as a supplier of premium quality curtains and décor fabrics. The 'Goldkante' became a symbol for the quality of this internationally respected German textile specialist. ADO has been a part of the ZIMMER + ROHDE Group since 1st January 2013.

ADO Goldkante – For rooms with a zest for life

ADO textiles bring harmony, airiness and a pure zest for life into homes. Extraordinary details, natural textures and countless degrees of transparency ensure a natural cosiness at home and bring your dream interiors to life. The wide spectrum of patterns – from urban to natural, elegant to playful – offers the perfect material for every taste. Aspects such as easy care and diverse combinations also meet the individual needs of everyday life; with a five-year guarantee. That's why ADO fabrics make the perfect design elements for all rooms and every phase of life.
