ADO collection NEW ROMANCE

# Romance for experts

**The new** ADO **collection** NEW ROMANCE **evokes effortlessness. Whether it's luminous transparency, modern naturalness, relaxed elegance or an urban lifestyle: The** NEW ROMANCE **collection combines four strong themes to interpret 'romanticism' in a multifaceted and striking way and, in doing so, plays against our often hectic daily lives. Choose your favourite motif to help you slow the pace at home.**

**White Harmony:** Transparency fires the imagination, which joins shadows and light in playing with bright, soft and flowing fabrics. Small, playful, romantic motifs and feminine floral designs like the large prints in **FIORELLA** invite dreams and impart a sense of homey warmth to linear architecture.

**Sunny Garden:** Cheerful, fresh and authentic: Light watercolour motifs, modern stripes, floral prints and sunny colours show how youthful and refreshing cottage style can be. Fabrics, such as the Jacquard **AMIRA**, combine large patterns with expressive structures and thus reveal the artistic aspects of natural elegance.

**Easy Elegance**: Patterns like the decorative fabric **DAMASCO** have stories to tell. The classy, lustrous and vibrant patina effects of the ornamental prints and damask motifs are evocative of a bygone era. Elegant, classic fabrics form a bridge between the past and the present built on fresh colour schemes and innovative techniques.
