

Diverse textiles with added value

SLEEP DIMOUT: Relax without glaring light

Day after day, our senses are bombarded with colours, brightness and reflections of light. In order to unwind and rejuvenate, we need some peace and quiet, and not just in the acoustic sense. **ADO SLEEP DIMOUT** uses an opaque fabric to stylishly and reliably block out dazzling light while you sleep or rest.

Simply close the attractive single-colour drapes and relax without any disruptions. Whether you want to prevent a south-facing room from overheating in the midday sun, take a relaxing nap without any annoying light reflections or simply enjoy a good night's sleep despite bright street lights, **ADO SLEEP DIMOUT** can always provide a cosy solution for privacy and protection from glaring light.

The low-maintenance fabric is available in a range of 12 pleasant colours and harmoniously blends into the ambience of the room and lends it visual calm, even when left open. All that's left to do is lean back and relax.

HORIZON: A heavenly view

The name says it all: This fabric truly opens up new horizons. The optical division of **ADO HORIZON** makes this possible. The lower opaque section stylishly conceals everything from radiators to tangled cables, while the transparent upper section lets in the light and scenery from outside.

The fabric is woven from one piece of material, yet its varied levels of transparency make it possible to use in a range of applications. It protects you from prying eyes at eating and seating areas next to the window, yet doesn't plunge the room into darkness. Alternatively, it can also be used to decoratively conceal less attractive areas below the window while ensuring that the panes remain a clear focal point.

Wave-shaped applications emphasise the textile's Frieze effect and add a crowning splash of colour to the two-part all-rounder. **ADO HORIZON** offers you a heavenly view in a range of six colours.

CoverTex™: Textile trends for walls

Walls have come into fashion. Gone are the times when this neglected component of interior design was completely covered in white woodchip wallpaper and painted over time and time again. People have now discovered that the largest surface in the room can be used to create a sophisticated design. Textile wall coverings take on a diverse yet attractive role. ADO's **CoverTex™** wall covering is the perfect solution.

CoverTex™ has many technical benefits, such as significantly better acoustics and noticeably improved thermal insulation, but the creative system also scores points thanks to its range of visual options. Unlike previous full-surface installations, the **CoverTex™** wall covering allows you to combine a fresh mix and match of different qualities, colours and patterns. Alternatively, you can create a single accent wall in

the room using a **CoverTex™** covering that ties in with the pattern of the drapes yet adds something different.

This decorative variety is possible thanks to an innovative assembling system that simply and quickly applies the fabric at an affordable price and then exchanges it again, if desired. The panel is fixed to the supporting rails attached to the wall using a single special spatula. Rubber mounts ensure that the fabric does not slip and remains taut against the wall.

What's more, it is possible to simply install the ADO **CoverTex™** system using common household tools, making the coverings suitable for a range of application, from new buildings right through to renovation projects. **CoverTex™** combines energy efficiency with attractive interior designs for walls.

About the company

In 1954, ADO, which is named after its location in AschenDorf, Germany, was founded by Hubert and Marianne Wulf as a supplier of premium quality curtains and décor fabrics. The 'Goldkante' became a symbol for the quality of this internationally respected German textile specialist. ADO has been a part of the ZIMMER + ROHDE Group since 1st January 2013.

ADO Goldkante – For rooms with a zest for life

ADO textiles bring harmony, airiness and a pure zest for life into homes. Extraordinary details, natural textures and countless degrees of transparency ensure a natural cosiness at home and bring your dream interiors to life. The wide spectrum of patterns – from urban to natural, elegant to playful – offers the perfect material for every taste. Aspects such as easy care and diverse combinations also meet the individual needs of everyday life; with a five-year guarantee. That's why ADO fabrics make the perfect design elements for all rooms and every phase of life.
